

Permit to Import Quarantine Material

Permit: IP15008099 Valid From: 14 Aug 2015 Valid To: 14 Aug 2017 Page 1 of 3

Importer	Exporter
Mrs Charlene Gerber AsureQuality Pty Ltd 3-5 Lillee Crescent (QAP V2623) Tullamarine Melbourne VIC 3043 Attn: Sara Wright	Various Suppliers Exporters Various Addresses In All countries

You are authorised to import the following material under the listed conditions
Note: This permit covers the Department of Agriculture quarantine requirement only.

All imports may be subject to quarantine inspection on arrival to determine compliance with the listed permit conditions and freedom from contamination. Imports not in compliance or not appropriately identified or packaged and labelled in accordance with the import conditions they represent may be subject to seizure, treatment, re-export or destruction at the importer's expense.

Additionally, all foods imported into Australia must comply with the provisions of the *Imported Food Control Act 1992*, and may be inspected and/or analysed against the requirements of the Australia New Zealand Food Standards Code.

All imports containing or derived from Genetically Modified material must comply with the *Gene Technology Act 2000*.

It is the importer's responsibility to identify, and to ensure it has complied with, all requirements of any other regulatory organisations and advisory bodies prior to and after importation including The Australian Customs and Border Protection Service, The Department of Health and Ageing, Therapeutic Goods Administration, Australian Pesticides and Veterinary Medicines Authority, Department of Sustainability, Environment, Water, Population and Communities, Food Standards Australia New Zealand and any state agencies such as Departments of Agriculture and Health and Environmental Protection authorities. Importers should note that this list is not exhaustive.

This permit is granted for the purposes of the *Quarantine Act 1908* and *Quarantine Proclamation 1998* of the Commonwealth of Australia. The laws of Australian States and Territories may also impose restrictions on the import of animals, plants and other goods into those States and Territories. This import permit does not prevent the application of those State and Territory laws. The importer should seek its own advice on any restrictions that may apply in any State or Territory into which it is proposed to import the animals, plants or other goods to which this permit relates.

Import conditions are subject to change at the discretion of the Director of Quarantine. This permit may be revoked without notice.

Notification of the import must be provided to the Department of Agriculture for all imported goods other than goods imported as accompanied baggage or goods imported via the mail and not prescribed under the *Customs Act 1901*. Notification must be consistent with *Quarantine Regulations 2000* (examples include a Quarantine Entry or a Quarantine declaration).

Commodity Name	Condition Number(s)	Country	End Use
Food Samples for Analysis (excluding fresh fruit and vegetables, raw nuts, whole grains, salmonid fish, raw meat and raw egg)	PC0017 AND PC0839 AND PC4074	All countries	In-vitro use or in-vivo use in laboratory organisms only

consignment and must be valid at the time the cargo is landed.

2. In order to facilitate clearance of mail shipments, the import permit (or number) and all documentation should be securely attached to the outside of the package and marked 'Attention Quarantine'.

3. The importer must meet all costs associated with the import of this product.

4. The importer (or agent) must lodge a quarantine entry for each consignment.

5. Documents must be provided with each consignment which:

a) identify the consignment e.g. entry number; and

b) identify all goods being imported as part of this consignment e.g. invoice or waybill or importers manifest; and

c) describe the goods being imported (where not clear) Example 1: Product XRab = Purified protein derived from rabbits. Example 2: Product AX = Synthetic antibiotic. Example 3: Comte = Cheese.

Note: It is the importer's responsibility to provide any additional information which is requested in order to demonstrate that the import permit covers all goods being imported.

6. Consignments that do not meet the import conditions will remain under the Department's control pending export or destruction at the importers expense.

PC0839 **This condition requires product to be directed to and held at a Quarantine Approved Premises.**

Post Entry Requirements

1. The products are for use at:

AsureQuality Australia Pty Ltd (#V2623)
Residues Lab - Ground Level 3 - 5 Lillie Crescent
TULLAMARINE
VIC
3043

2. The premises must be approved as a Class 5 QAP. These premises must have current approval at the time of importation, and until such time that all imported material and its derivatives are removed for disposal or re-export.

3. The level of containment must be QC (PC) 1 or higher.

Condition	Condition Text
	4. Where more than one Quarantine Approved Premises is listed in point 1.above, the samples may be transferred between the listed premises. All records of transfer must be maintained for audit purposes.
	5. The goods and their derivatives shall not be removed from these premises, except for disposal or re-export, without the prior written approval of the Director of Quarantine.
	6. Disposal must be by incineration, autoclaving or other methods approved in writing by the Director of Quarantine.
	7. This Import Permit allows for the importation of goods for in vitro laboratory studies or in vivo use in laboratory organisms only.
	8. Laboratory organisms are those defined in the following list and must be contained under laboratory or animal house conditions: guinea pigs, hamsters, mice, rats, rabbits or micro-organisms. Work in all other animals and plants is not permitted.
	9. For all uses in non-laboratory organisms (e.g. chickens, sheep, cattle, etc.) or plants a separate application for in vivo use must be lodged with, and approved by the Department of Agriculture. This also applies if the product is to be used in veterinary vaccine or veterinary therapeutic manufacture.
	10. This Import Permit does not permit the direct or indirect exposure of the imported materials or derivatives to non-laboratory organisms or plants.
	11. It is the importer's responsibility to ensure that the goods are labelled "In vitro use or in vivo use in laboratory organisms only" or equivalent on the smallest packaged unit prior to distribution.
	12. On completion of work all imported materials and the direct or indirect derivatives thereof shall be disposed of by re-export, incineration, autoclaving or other methods approved in writing by the Director of Quarantine.
	13. It is the importer's responsibility to ensure compliance with all international (e.g. IATA) and domestic requirements concerning the safe handling, transport and labelling of biological material.
	14. It is the end user's responsibility to ensure that all laboratory products are used in accordance with the current AS/NZS 2243 Safety in Laboratory standards and Office of the Gene Technology Regulator (OGTR) requirements.

PC4074 **Conditions for the importation of food samples – end use restrictions**

1. This permit allows for the importation of food product samples for the purposes of scientific or commercial evaluation only.
2. The food product samples are not permitted to be used in a taste panel or consumed.
